

**REPORT TO THE LESIGLATURE**  
**Pursuant to P.A. 345 of 2004**  
**Section 910**  
**Reimbursement From Health Insurance Providers**

The Department of Corrections has been unable to discover any health insurance providers that maintain coverage of clients who become incarcerated. It appears as though all health insurance providers have discontinuation clauses in their contracts for incarceration periods. The Department has been unable to collect any reimbursements from health insurance providers. However, the Department does collect from local communities who are insured for any costs for injuries incurred while working on public work crews. We also collect reimbursements from any prisoners determined to have adequate funds available for all costs of incarceration including health care.
